

CONCISE STATEMENT OF JP2002-49359

This reference was cited in the specification of the U.S. patent application Serial No. 10/774,700 filed on 2/10/2004 as it teaches:

-- among such semiconductor devices, a structure in which on a substrate that becomes a panel not only a pixel portion but also a driving circuit as an internal circuit are integrally formed and an external circuit is formed outside of the panel is known.--
